The cause of Rheumatism is a sour, acid condition of the blood, brought about by indigestion, chronic constipation, and the accumulation in the system of refuse matter which the natural eliminative organs have failed to carry out. This refuse or waste matter ferments and sours, generating uric acid which is absorbed into the blood and distributed to all parts of the body, ad Rheumatism gets possession of the system. One may also be born a predisposition or tendency to Rheumatism, because like all blood dis-es it can be transmitted from parent to child. The aches and pains of the disease are only symptoms which you may scatter or relieve with liniments, plasters, blisters, etc., or deaden with opiates. As soon, however, as such treatment is left off or there is any exposure to cold or dampness, or offer on ottack of indication. as such treatment is left off or there is any exposure to cold or dampness, or after an attack of indigestion or constipation, the wandering pains, sore muscles and joints, and tender places on the flesh return, and the sufferer finds that he has merely checked the symptoms while the real cause of the disease remains in the blood. Rheumatism can never be cured while the blood remains saturated with irritating, pain-producing uric acid poison. S. S. S. cures Rheumatism by driving the cause out of the blood. It thoroughly cleanses the blood and renovates the circulation by neutralizing the acids and expelling all foreign matter from the system. S. S. S. stimulates and invigorates the blood so that instead of a weak, sour stream, constantly depositing acrid and corrosive matter in the muscles, joints, nerves and depositing acrid and corrosive matter in the muscles, joints, nerves and bones, the body is soothed and nourished by rich, health-sustaining blood, which completely and permanently cures Rheumatism. S. S. S. is composed of roots, herbs and barks which possess both purifying and tonic properties—just what is needed in every case of Rheumatism. Book on Rheumatism and medical advice free.
